

Sprint 3 Plan

Slug Pantry

Slugs en la Cocina

November 4th, 2019

Goal: Get a Minimum Viable Product

User Story 1: As a user I want the app to display recipes based on ingredients in my pantry.

Task 1: Api should pull from pantry list - 8

Task 2: Recipe names should be hyperlinks to the recipe - 8

Total for User Story 1: 16

.

User Story 2: As a user I want to be able to save ingredients so that I don't have to enter them when I reopen the app

Task 1: Store Pantry items in phone storage - 5

Task 2: Make the Pantry read those items and display them upon reopening - 3

Total for User Story 2: 8

User Story 3: As a user, I want my database to be private

Task 1: Create a user login page - 2

Task 2: Use login info to create unique keys for Firebase - 5

Total for User Story 3: 7
