

Sprint 4 Plan

Slug Pantry

Slugs en la Cocina

November 18th, 2019

Goal: Begin using firebase to improve the quality of our product. Allow users to create a login that can save their ingredients and favorite recipes.

User Story 1: As a user I want to be able to login to my own personal pantry.

Task 1: Create a screen that has two edit texts: one for username and one for password and login button. (9)

Task 2: Figure out how to censor a password (4)

Task 3: Save the login credentials to firebase (16)

Total for User Story 1: 5 hours/29 points

User Story 2: As a user I want to be able to favorite recipes that I can get back without needs to insert specific ingredients into the pantry page

Task 1: Create a new screen that has a list of favorite recipes (9)

Task 2: Pull favorite recipes from firebase (9)

Task 3: Give each recipe card in the recipe page a button that allows the user to favorite a recipe (16)

Total for User Story 2: 6 hours/37 points

User Story 3: As a user I want my pantry to be recalled when I reopen the app after closing it.

Task 1: Store ingredients from the pantry page onto firebase (9)

Task 2: Pull ingredients from firebase and populate the pantry page with them (9)

Total for User Story 3: 3 hour/18 points
